SERVICE PROJECT: YOUTH ARE AVAILABLE TO DO FREE YARD WORK

FROM THE MINISTER

This Saturday morning we will be having a DIY clinic on installing flooring in the chapel. You will gain the skills you need to take on flooring projects in your home and at the same time, help restore the beauty to the chapel. I have installed such flooring in a dozen rooms and hallways. It is amazing what can be done in one day to transform a room.

Now if my life could be transformed in one day that would be a skill I would gladly pass on to others. Tuesday night, New Beginnings leaders will be learning by doing the skills we believe will do just that -- change our lives and First Christian Church. This weekly commitment will challenge us not just to read and understand but to experience faith in ways that call us toward others. It is easier to grow in faith for our personal enjoyment or strength. But when we take seriously the call to go into the world or move outside our safe zones, we are suddenly uncomfortable and unsure.

Our plans are, that once we have the skills and experience, we will be ready to lead others.

The goal for this big push as a congregation will be September. As part of this effort, we will invite the congregation to receive the same training as part of an E-Event (Evangelism Event). Worship will change and we will be on our way toward transformation as a congregation. Will we suddenly become prettier and more handsome? No. But we will be changing in the ways of faith that makes us more faithful and open to the leading of the Spirit of Christ.
